Women's Health

Foreword

Endometriosis is a very common problem all over the world. Although we know a lot about endometriosis, it still keeps its enigma. There have been so many studies on this mysterious disease and sometimes it is difficult to 'catch up on' the literature. This is the main reason that we aimed to compile a Special Focus Issue on Contemporary Approaches to Endometriosis.

We hope this Special Focus Issue on 'Contemporary Approaches to Endometriosis' will give updated information to the readers and will encourage them to perform more studies on this 'cryptic' disease.

Acknowledgements

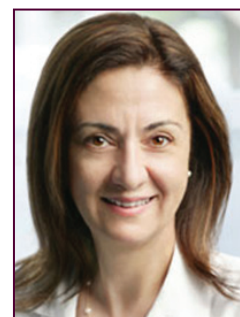

The authors thank Duc Hong Le for his patience and inspiring manner while completing our work. The authors also thank the authors of the chapters for their hard work.

Financial & competing interests disclosure

The authors have no relevant affiliations or financial involvement with any organization or entity

with a financial interest in or financial conflict with the subject matter or materials discussed in the manuscript. This includes employment, consultancies, honoraria, stock ownership or options, expert testimony, grants or patents received or pending, or royalties.

No writing assistance was utilized in the production of this manuscript.
